Definition of Terms

*Each State submitted at least one waiver in FY 2003 for approval.

**Total number of States with waivers. There may be more than one approved waiver for a State.

***These States have multiple waivers covering different parts of their respective caseloads. Because these waivers have different expiration dates, the States may be listed as having simultaneous approved for another year (expiring sometime in 2004), expiring this year (but approved in 2003), and pending (2004) waivers.

Additional Explanatory Notes

As a general rule the following table is limited to approved waivers and recent denials. If an extension request is not received within 60 days following the scheduled expiration date of the waiver, or if a State agency has advised FNS that it will not be seeking an extension of an expired waiver, the waiver is removed from the table.
